Solidcom SE

Seamless Team Talk

Solidcom SE is what small production teams need to take their communication experience to the next level. Engineered with a focus on affordability without compromising quality, the 1.9 GHz or 2.4 GHz full-duplex communication system boasts a lightweight form factor, advanced Environmental Noise Cancellation, and water and wind resistance, among other features, empowering team members to collaborate effectively in diverse settings, including commercial video production and waterside operations.

Massage Chair

Automatic Foot Massage Machine

A photograph of a relaxation zone. In the center, two large, beige leather massage chairs sit on metal rolling platforms. To their left is a small white wooden bench with a sign that reads "RELAXATION ZONE". In the foreground, there are several white plastic chairs with yellow horizontal stripes, each with a black footrest. The room has a brown patterned carpet and a wall with brown acoustic panels. A window with sheer curtains is visible in the background.
